

**To all residents, visitors, and friends of Savoy:**

This is an unprecedented time for us all. We know you have been swamped with information but let us share a bit of Savoy updates.

The village will continue to follow the CDC and Governor Pritzker's recommendations. We have been able to defer any Savoy Board of Trustees meetings. Our first potential meeting will be April 8th.

Many Savoy businesses are open to carry out and curbside. We hope you will enjoy our great eateries. They will appreciate your support.

Savoy groceries stores are open but, of course, use social distancing with employees and patrons. Most stores are prioritizing seniors and any patrons who need extra space to shop early in the day.

**Public Works:** The public works department is continuing to provide usual services to our residents. Construction projects will continue as well, including the reconstruction of Pheasant Lane.

**Savoy Fire Department:** The fire department has always served the community during emergencies and will continue to do so in this time of uncertainty. Access to the fire house is restricted to personnel only, in order to reduce the spread of illness to our volunteer firefighters. Please continue to contact 911 during emergencies and know that our department is committed to your safety and well-being.

**Zoning:** Inspections on house construction and infrastructure improvements continue. Please contact the zoning department with any issues or concerns.

**Municipal Center:** The Robert C. McCleary municipal center remains open for staff operations. Residents and businesses can access the front door to drop off forms as usual. Visitors are asked to use the doorbell located in the lobby for assistance from village staff.

**Parks:** Parks remain open! We encourage everyone to use the parks for exercise, fun, or just to relax. But, please **remember to use good social distancing measures!!**

**Recreation Center:** The Rec Center continues to remain closed until further notice...

We have heard wonderful stories of our residents checking on neighbors and the elderly. There is creative sidewalk chalk art. Folks are donating blood. Thank you for stepping up during this tough time. We're all in this together and we'll get through this together.

**Don't forget to fill out the Census form as soon as your family gets it! It's vital to count every Savoy resident.**
